Mow to Tell the Time by Night,

Perhaps the most ingenious thing in the way of an advertising novelty that has seme out for many years, is a unique contrivance issued by the Duffy Male Whiskey Company, Baltimore, Md., proprietors of Duffy's pure malt whiskey, Unlike most things of the kind, with which the country has been deluged heretofore, this is a decided departure from the usual rut, and askie from being one of the most attractive things we have ever seen, it involves a new discovery in science which is both interesting and inatructive. So valuable was this discovery regarded it was awarded a first prize gold regarded it was awarded a first prize gold medal at the Brussel's International Ex-position, and it seems almost like prostituting science to put it to adver-tising purposes as it is something that is toward to institutions of learning, and would readily command a good price if put on sale. However, the Duffy people, appreciating its importance, have gotten it out in the highest artistic style, such as is out in the highest artistic style, such as will secure for it a permanent place in

every house in the country.

The device is called Duffy's Aucient Mariner's Stellar Time-Piece, its object being to furnish a guide whereby the correct time may be ascertained at any hour of the aight, by observance of the North Star and three other bright stars near it, the four stars forming a Cross or Crucifix, which revolves round the celestial pole like the hands of a clock. By the aid of the Duffy's device, which represents a miniature firmament and tabular dial, the time can be ascertained almost to the min-ute which is destined to render it invaluable to Mariners, Hunters, Fisherman and to the masses generally, as after a little practice, even a child will be able to tell the time at night. Although the device is quite an expen-

sive one, the proprietors intend distribut ing it free and in time every-body is the country will have one. Requests for same by mail, must be accompanied by six cents in postage stamps addressed to their Supply Department, as already they are gooded with applications.

CHEAT RIVER CANON. The Picturesque Scenery — Grand Views from Mountain Tops. Correspondence of the intelligencer.

Morgantown, Sept. 4.—The waters of

above Ice's Ferry, to the mouth of Quarry Run, about a half mile further up the

ver, At Ice's Ferry the river, emerging from he canon above, flows along the base of ow hills, making bold cliff; and sleep pluffs along the immediate banks. The iver at this point begins to extend into hat long sweeping curve which extends or several miles, enclosing in a peninsular hape that rich and productive tract of country known as "Cheat Neck." GEOLOGY OF THE COUNTRY.

About one-fourth of a mile above the ferry a small stream puts into the west bank of the Cheat, over the Mahoning sandstone cliff, known as Bayles' run. The apper Freepoit coal lies about ten feet ba-ow the level of Cheat river at the mouth

low the level of Cheat river at the mouth of Baylee's run.

In passing up the river south-eastward from the ferry, the rocks rise very rapidly toward the Cheatnut Ridge axis, and the top makes its appearance above the river level in a massive damliko wall just below Mr. Ley's, and not quite a mile above the ferry. Above Mr. Ley's the rocks rise than 10 to 150 feet to the rills and bring the control of the rills and bring the rocks rise than 100 to 150 feet to the rills and bring. bout 400 to 450 feet to the mile, and bring he top of the Mauch Chunk shales above he river level at the mouth of Quarry Run.

ed several friends from Johnstown, Grsensburg, McKeesport and Pittsburgh. They pitched their village of tents at the mouth of Quarry Run, on the northwest bank, on a gently sloping bluff. They named their place "Camp Breeze."

CAMP BREEZE. Immediately opposite Camp Brezze, on the other side of Quarry Run, is situated the famous camping ground known as "Camp Eden". This is a triangular bluff,

purl among the rocks. A PLHASANT BATH.

Morgantown, Sept. 4.—The waters of Cheat river have been a favorite summer resort for a large number of people from the towns and cities of western Pennsylvania and northern West Virginia for a number of years. The popularity of this region as a camping ground has been anoually increasing, until at the present time, it is impossible to afford any sort of accommodations for the numbers who time, it is impossible to afford any sort of accommodations for the numbers who apply for places, many being turned away. And only those who are well enough organized to provide for camping and supplying all that camping means, can enjoy the beauties and pleasures of the Cheat fully and certainly.

All the way along this stream, at various places, from its mouth to the point where it breaks through Cheat river canon, about one mile and a half above lee's Ferry, where the Morgantown and Uniontown plke crosees it, may be found camping parties who have let their homes in the cities to enjoy a few weeks of rest and recreation on the banks of this river. But the locality which has gained a just celebrity over all others, extends from the residence of C. S. Ley about one mile above lee's Ferry, to the mouth of Quarry but the stream at the potential provided the potential of the water rare kept in raid rotation, so as gradually to excavate the holes. Of cours: the stones are themselves residence of C. S. Ley about one mile above lee's Ferry, to the mouth of Quarry but the locality which the first when the process, but other stones are swept in to supply but other stones are swept in to supply their place. Many of these pot-holes may

their place. Many of these pot-holes may be seen where the course of the stream once was. The greater number of those not now in the course of the stream have become almost flied up with sand and pebbles. The deepest one is at the too of the ledge of boulders, where the water pours over, and is seven feet deep with a diameter of about eightsen inches.

There are many points along the top of the river canon from which magnificent views may be had; scenery so beautiful and so sublime as to awaken the artistic sense of the beholder who appreciates the scenery of nature. The fluest view on the river is that known as Hanging Cilif, sometimes erroneously called Buzzard except the mouth of Quarry run, and almost opposite the mouth of Lick run, a small is stream that puts into the river from the stream that puts into the river from the west side.

the top of the Alsuch Chunk estates above the river level at the mouth of Quarry Run.

The Constant Ridge axis crosses Observations.

The Constant Ridge axis crosses Observations and the rest of the axis the Great Constant of the stream between these two points is about 100 feet. Here at the creat of the axis the Great Constant at the stream the two points is about 100 feet. Here at the creat of the axis the Great Constant of the stream between these two points is about 100 feet. Here at the creat of the axis the Great Constant of the stream into the stream into immense blockers, and apparate the stratum into immense blockers, and one of the Canon, and look from a distance as though a slight push would disloader the stream the sketch has taken langely from "Note on the Geology of West Virginia" by Prof. I. O. White, of the University.

During the present season there has been at thine season of the mountain could be had. Mr. Ley has four among the state of the canon, and lock from a distance as this reason; while numbers, applied by the barrier of the sketch has taken langely from "Note on the Geology of West Virginia" by Prof. I. O. White, of the University.

During the present season there has been at times as many as one hundlers and the statem into the great chasm beneath.

During the present season there has been at times as many as one hundlers applied by the stream of the canon and lock from a distance which the tree of the sketch has taken langely from "Note on the Geology of West Virginia" by Prof. I. O. White, of the University.

During the present season there has been at times as many as one hundlers applied by the stream of the canon of the mountain staken langely from "Note on the Geology of West Virginia" by Prof. I. O. White, of the University.

During the present name of the sketch has taken langely from "Note on the Geology of West Virginia" by Prof. I. O. White, of the University.

During the present season there has been at times as many as one hundlers applied by the profered of the stream

care to go so near as to look fairly over the over the outer edges of the precipics.

From this point of view, ficing the gulch of Lick run, the upper end of that broad and deep sheet of water, contain-ing from eight to ten seres of surface, known as Beaver Hole, may be seen on the left, just a short distance below the point on the river where the line between the countless of Monoradia and Preston

W. W. Reed, druggist, of Winchester, Ind., writes: "One of my gustomers, Mrs. Louiss Pike, Bartonia, Randolph county, Ind., was a long sufferer with consumption,

About half way up this glen the water falls over a huge boulder that at some time has planted itself firmly in the bed of the She heard of Dr. King's new discovery run, and at the top of the rock separates for consumption, and began buying it of forms a very delightful cold water shower the fall than, persons who have used this new something and its she walked to both Many persons who have used this now so much improve she has quit using bath speak of it in the highest terms, as it. She feels she owes her life to it."

I free trial bottles at Logan & Caldring or consumption, and began buying it of me. In six months' time she walked to this city, a distance of six miles, and is now so much improve she has quit using it. She feels she owes her life to it."

Free trial bottles at Logan & Co.'s drug store.

"How would you like your hair cut?" inquired the barber. "In silence," was the ready answer of the victim.

A. B. C. Chasson, floor-walker for Stern Brothers, 32 West Twenty-third street, New York, together with his wife, was troubled with malaria for upwards of two years. They were both entirely cared by taking one or two Brandreth's Pills every night for three months, without interfering with their labor or household duties. The wages of sin are not reduced.
